System Control & Architecture Engineer
MBSE & Simulation Expert

PROFESSIONAL EXPERIENCE

CONTINENTAL AG, Toulouse, France: System Architect Project Leader

2022/01 - Present

- **Mission 1: System Architect Project Leader**
 - Led complex embedded system architectures using *System Composer* & *MBSE* methodologies in *Agile* environments.
 - Performed Model-in-the-Loop (MiL) simulation to analyze dynamic behavior and optimize control functions.
 - Client-facing solution delivery: presented technical solutions, coordinated cross-functional teams, facilitated strategic client reviews (Maruti Suzuki, recommendation available).
 - Conducted requirement management, V&V, and traceability, ensuring alignment with client needs and product strategy.
- **Product:** Tire Pressure Monitoring System (TPMS)
- **Mission 2: System Requirements Manager**
 - Managed Client Relationship.
 - Managed functional requirements & Integration manual and traceability via *Doors*, including safety constraints alignment (*ISO 26262*).
 - Coordinated with Software and Test teams and facilitate client reviews.
- **Product:** Tire Pressure Monitoring System (TPMS)

NEXTEER, Paris, France: System Engineering MBSE

2021/03 – 2021/12

- **Mission 1: System Modeling & Simulation**
 - Developed system-level control laws and plant models using *MATLAB Simulink*.
 - Designed and implemented real-time estimators to dynamically evaluate system variables and tune *PID controllers*, significantly improving system response and stability.
 - Implemented performance optimization approaches for high-performance computation.
- **Product:** Electrical Power Steering (EPS)

PUNCH POWERGLIDE, Strasbourg, France: Internship

2019/06 – 2019/08

- **Product:** Automatic gearbox
- **Mission:** *Quality Control Support and Manufacturing Process insight*

TECHNICAL COMPETENCE

Architecture & System Design	MBSE, Functional & Logical Design, System Composer, Requirement Analysis & V&V, MIL, Pre-Sales & Client Solution Delivery, CAN, Diagnosis, DTC
Standards & Methods	ISO 15288, AP233, ISO 26262, ASPICE, AUTOSar
Programming & HPC	MATLAB/Simulink, Python, C/C++, Performance Optimization
Tools	DOORS, Rhapsody, JIRA, HIL Test Benches, Excel, PowerPoint, MS Project

UNIVERSITY CURSUS

2018-2021 **Engineering Degree in Automation and Embedded Systems** – ENSISA – Mulhouse, France
2016-2018 **Preparatory Classes for Elite Engineering Schools (CPGE)** – MPSI/ MP – Meknes, Morocco

LANGUAGES

French: Bilingual | **English:** Fluent (C1) | **Arabic:** Bilingual
